ERACG'S ARTIC LINIMENT. "HIS great specific, which is a triumph in the progres of medical science of the nine centh century, is not presented to a public free from pain, suffering and disease. It was not discovered, nor is it now prepared for the epossessed of so nd health and robust constitution, but for a large class who are suffering pain.

Have you the Beanchilis?

Have you the Neuralgia? Have son the Far or Tooth Ache?
You may rid sourseif entirely of these distressing evils by the use of Bragg's Arctic L niment.

Are you afflicted with oid Sores? Are you suffering from severa Brulses ! Are you end ring pain from Sprains !

One bo the of the Arctic Liniment will surely give relief

Elementism is a dreadful complaint, Scrofula is a loath ore disease. Yet such is the wond-riol healing properties of Bragg' Aresic Liniment, that it will a most instantly caregacute and chronic Rhenmatism, and conove Scrottin.

Why will you suffer with Scarce of

Why will you suffer with the Polest

Why will you submitte Chilbiains?

When by using the Arctic Limiment you may find peranent relief. There are in this world thousands and tens of thousands a, c. CARTER. who are, year after year, suffering with one or more of the man- diseases with which bureauity is afflicted, antil dispairing and righ unto the grave. Wounds, bruises, burns, scald head chilbleins, piles, corns, warts, bites of insects sore eyes, tooth ache eir ache, neura gia, sore throat, paralysis, di cases of the Skin, tamors wens, ring werms, curves, coxe in the breast, sore lies, stiffness in the joint rheumatism, goot, &c., have fastened upon them, and the poor suffere ware seeking an antidute. To all uch, br. Breggia Arctic biniment cores as a sure and specify renedy, it is a baim for every wound, and it neve fails I Hendreds and housands are to ting its virues, and are rejoic ng it freedo a from pain and suffering FARMES AND BORSE RAISERS.

Dr Bragg's Arctic Liminen is also a sowere gn remedy for the various diseases, with which borses are afflicted, during the most slarm ng cases of bruices, sprains, spring friend for their liberal patronage, we respectfully solicit halt, wounds, craches, sweeney, spavin, ring bone, big-had, poli evil, etc. No farmer, livery stable keepersor any person owning valuable horses should be without it.

ITS PREPARATION. The ingredients of the Archic Linement are of the most costly hind while the atmost are in he towel upon compounding them by one of the members of the com any who makes a per-onal examination of every bottle put NO FAMILY SHOULD BE WITHOUT IT.

In case of accident, it is wise to have a remedy at hand to apply instantiv. Many lives are thereby saved, when it lef to the podding time of a medical practitioner must have been lost. The Arctic Limited its the best specific have been ford. The Arctic limitant is the best special as it acts upon the parts affected instantly. It is put up in 20c, 0: and \$1 bottles. The 50c and \$1 bottles cantain 50 and 1:0 pr of more Limitant than the 25c bottles, and are much cheaper.

Every pessen outsing a \$1 bottle of Bragg's Arctic limitant will be farmished at Dr. Bragg's expense, with Emerson's United States Journal, published in New York for one year he filling unthe certificate around each Dollar bottle, and sending it to J. M. Emrason & Co., No. 371 BRAGG & BURROWES,

THE GREATEST INVENTION OF THE AGE. West's Patent Galvanie Cement For Roofing.

HE subscriber is now prepared to cover roofs of build-ings, with a new and better article than ever before I ings, with a new and better article than ever before known. The public are aware that our Government has had scientific men experimenting, and that it has been the study of Architects and Builders, for years, to discover an article for roofing purposes, that would stand the sudden changes of the weather, and be impervious to fire and water, and remain a pernanent fixture. As yet, nothing has been attained without coating more than the people wish. The contraction, expansion and rusting of metal roofs, are so great in changeable climates, that they become useles, unless being reasized. roofs, are so great in changeable climates, that they become usele s, unless being repaired at great expense yearly. Ehingles are not fire proof, and cannot be used on flat roofs, and the various Compositions and Cements that have been brought into use for roofing, do not stand the action of the weather, but they run when it is warm, and crack when frosty, and after one or two years become crumbly, and worthless; whereas, the inventor of the Galvanic Cement, has labored twenty years to combine articles to obviate those difficulies, and can testify from his long experience, and numerous te timonials from reliable persons, who have had his combination applied to their buildings, that his Cement is the cheapest and best aticles. buildings, that his Cement is the cheapest and best aticler ever before known. The combination of this Cement is such that it is calculated for entire new roofs, flat or steep, coving the contract of the co that it is each late for entire new roofs, flat or steep, covering over old shingles without removing them; lining eave-thoughs, seaming around battlements, chimneys and sky-lights. Covering car-tots, steamer-decks, ac. This Cement, by its non-conduction and galvanism, prevents metal roofs from rusting and unsoldering, and resists the extremes of heat and cold, better than any thing ever invented, for entire roofs or fer covering metal and the out side of wood buildings, making them fire proof. Its appearance is like slate; heautiful for the rich values or the pearance is like slate; beautiful for the rich palace or the

bumble cottage.

The undersigned having secured the right to the State of Tennessee, will sell rights of Territory, by Counties or Towns, on reasonable terms.

The subscriber is also prepared to cover roofs of buildings, in any part of the State, at short notice.

This Roof is now being put on in this city, for the benefit of all concerned, and warranted to excel all other modes of Roofing. The subscriber has ad his mode of Roofing tested as a its qualities, during the late was a subscriber by the was a subscriber by the late was a subscriber by the late was a ing tested as to its qualities, during the last year and a half in the city of Memphis, which has proved sails actory, to which a number of the nost prominent citizens can testify.

THE undersigned to prepared to introduce into use in Tennessee W. E. CHILDS & CO.'S PATENT ELASTIC FIRE AND WATER-PROOF CEMENT ROOFING, and ask the attention of Architects, Builders, Railroad Companies, and the public to examine its superiority over othe ARCHITECTS AND BUILDERS should not fail to examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every climate. It is impervious to water, elastic, and flexible. It contracts and expands with the changes of the atmosphere, and will neither evaporate, crack nor rot; and, as to its durability, there is no question.

It is practically imperishable, and will perfectfully resist any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will engage to put our Roofing on over ordinary good sheathing, old shippings, tar and gravel tip sine. old shingles, tar and gravel, tin, sinc, copper, or iron roofs —it making no difference how steep or flat they may be for seven dollars per one hundred square feet; it being far cheaper than any Boof of the old style, and we are sure it will give better satisfaction.

It will also be found to be the best thing ever invented to cover or mend old leaky tin, tar and gravel roofs, or around chimneys, scutties, dormar windows, and gutters, where the tin is rusted through. This Cement can be put on to last as long as stone, and form a perfect adhesion to any ob-lect to which it is applied. Tin Roofs can be painted over (and warranted not to leak) at two d liars and fifty cents he composition, which penetrates the cloth and protects it from the influence of the air and water. The Composition per hundred square feet, which is cheaper and much bet-lear than paint. This Roofing will be found to be the best theng for covering large stoofs where they are exposed to theng for covering large Roots where they are exposed to fir — such as Steam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Depots, Station Houses, Steamboat Decks, and, in fact, every kind of Roof where there is an external exposure from fire. As the Roof is perfect, without a joint not, it presents no chance for fire to communicate, and any

n it, it presents no chance for fire to communicate, and any ight substance will burn out without igniting.

Insurance Offices at Cincinnati, and other places where Childs & Co.'s Cement has been used, insure Buildings with Roofs obvered sith this Cement, at the same rates as for those covered with Iron, Copper or Tin.

The Cement will be furnished to those at a distance with directions for using.

Orders sent to the undersigned, through the Postoffice, will be promptly attended to I would respectfully refer to the following gentlemen for whom I have covered buildings with the cement. ARCHITECTS AND MASTER MECHANICS OF MANIFELD.

In all Nervous Eheu-matic, and Neuralgic Affections, it has, in numerous instances, proved highly beneficial, and in others effected a ecided cure.

This is a purely vegetable compound, prepared on stricty scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this inghty country. Meeting with great success among them, I now offer it to the Ameoican public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous

ing up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Wheever expects to find this a beverage will be disappointed; but to the sick, the weak and low spirited it will prove a grateful aromatic cordial, pussessed of singular remedial properties. CAUTION. The great popularity of this deligh ful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Boerhave's Holland Bitters a fair trial One bottle will convince you how infinitely superior it is
